

GUARDIAN ELOG

POWERED BY **DTI**
DIGITAL TECHNOLOGIES INC.

Driving Innovative Technology

ARE YOU READY FOR THE JUNE 2021 ELD MANDATE?

The Guardian ELOG has been designed as a mobile technology platform that provides a comprehensive solution for your electronic driving logging needs. It has been engineered to be fully compliant with government certification requirements.

Our device connects directly to your engines electronics of the vehicle to provide the most accurate data.

Key Features

GPS tracking

Secure Backups

Vehicle Activity Monitoring

Shockproof

Integrated Two-Way Communications System

Automatic Jurisdiction Recognition
& Fuel Tax Recognition Acknowledgement

Important ELD Mandate Requirements

- 1 The use of an ELDs applies to any federally regulated carriers who currently use traditional paper logbooks. Provincial and territorial regulators will need to adopt the rules that apply to provincial and interprovincial operations.
- 2 An ELD will automatically record information such as driving time, odometer readings, and engine power-up.
- 3 Roadside inspectors will be able to ask for an ELD record to be emailed to a supplied address.
- 4 Fleet compliance must have real time access to information.

Why choose us?

Diesel Tech Industries is a trusted and well established company with close to 20 years in the transport industry technology field. Our in-house engineering and real world expertise are backed up by the best customer service.

Guardian ELOG was developed with your fleet in mind. Our ELD provides many benefits to carriers and drivers. With countless options, the system was engineered to fit your requirements and is capable of being integrated with your transport management system.

Easy Transition

Guardian ELOG wants this to be a painless transition to a paperless log for your entire fleet. Guardian ELOG was designed to be user friendly while still being fleet compliant with the ELD mandate. The device will generate the hours and kms driven. Inspections are faster with reports that are easy to read. The result is completed with perfect accuracy because the mileage is accessed directly from the vehicles computer vs gps approximation.

Build your own custom solutions and integrate with our DTI system.

Pricing

Purchase of hardware device upfront and a monthly subscription. Contact us for more details.

Advantages

Expert Engineering

As with all of the products powered by Diesel Tech Industries, The Guardian ELOG is designed and engineered by our in-house technical experts. We are working alongside industry leaders with an inestimable amount of practical industry experience.

Secure Data

Guardian ELOG device is backed up to secure cloud based system, 14 days worth of data stored on the Guardian ELOG device. This ensures your data is accessible 24/7 on multiple platforms.

Vehicle Active Monitoring

The information is being retrieved directly from the engine. The Drive Time, Off Duty Time, Yard Time, Loading time information is gathered directly from the vehicle's electronic communications system (typically CAN bus in newer equipment).

Stand Alone Tablet

DTI designed a dedicated tablet that works seamlessly with the ELD system. The Guardian ELOG is designed to withstand drops, vibrations, crashes, extreme temperatures, differing altitudes, and natural elements such as wind, rain, sand, humidity and dust. By not relying on "off the shelf" or personal mobile devices; compatibility and permission settings are secured.
